

MACHINE OPERATOR

Established, family-owned metal fabrication company in Northwest Baltimore seeks machine operators to operate various mechanical and hydraulic machines and presses. Machine Operators are responsible for producing high quality parts while maximizing machine run time and productivity in a manufacturing environment.

Immediate need- First Shift - Monday through Friday

Job Duties:

- Read information in job packet and interpret blueprint to specifications and tolerances for parts
- Read and follow work instructions
- Use measuring equipment, such as calipers and micrometers, to check accuracy of dimensions
- Operate mechanical presses (on feet all day) and hydraulic presses
- Operate additional equipment such as laser cutting machines, manual mills, and annealing furnaces
- Perform degreasing functions
- Monitor output and proper operation of presses and machines
- Perform routine quality checks during production runs
- Recognize any unacceptable defects on parts and report issues to appropriate supervisor
- Maintain required paperwork for traceability and AS9100C requirements
- Follow proper safety procedures and wear required protective equipment
- Be cross-trained for a wide range of operations across different departments
- Lift heavy materials (up to 50 pounds)
- Work independently with limited supervision
- Other duties as assigned

Job Requirements:

- Effective communication and math skills
- Proven track record for attendance, problem-solving skills, and working independently
- Attention to detail
- Ability to read blueprints and other technical documents
- Ability to use and understand precision measuring tools
- Ability to focus for extended periods of time

Physical Requirements:

- Ability to lift, push, and/or pull up to 50 lbs.
- Ability to stand for long periods of time.
- Ability to use manual machinery.
- Good eyesight and ability to read.
